The faculty and administration consists of fully qualified professional educators. A full-time secretary assists the principal. Kindergarten has a full-time aide and first and second grades have part-time aides in their room each day. Part-time instructors in the areas of art, computer, library, music, physical education, and Spanish add to a rich school program. The Whitehall–Coplay School District provides the school with a part-time nurse, speech therapist and Title I remedial mathematics and reading teacher. Intermediate Unit 21 completes the staff with an additional remedial mathematics and reading teacher, an educational consultant, and a counselor. The personnel of the school view parents as the children’s primary educators and work in conjunction with the parents to create an atmosphere centered on the values of Christ. The faculty and staff work together to create a positive school experience for the students.
