

## **School Building and Grounds**

Saint Elizabeth Regional School is located south of Route 22 at Fullerton Avenue in Whitehall, PA. The school building is situated in the middle of the block on Pershing Boulevard. The church, parish hall and extended day facility are to the right of the school, and the day care building is to the left of the school. Access to the school building is gained by use of a monitor security system with a doorbell. The school consists of a two-story brick structure that includes the principal's office, secretary's office, copy room, faculty lounge, nine classrooms, library, and a computer lab. The parish hall is connected to the school and is used for the lunch program and weekly physical education classes; an additional room off of the parish hall is used for music classes. School assemblies are held in the parish hall. The grounds include a safe blacktop play area for all students.
